reusch®

THE START OF SOMETHING GREAT

The glove specialist has its origins in the attic of Karl Reusch. In 1934, he manufactured the first pair of gloves in his home. After decades of development, the first collection of winter gloves for pro athletes saw the light of day in 1972.

In the 1980s, Reusch had established itself as the world's market leader in the sports glove industry. At the same time, the company started cooperations and sponsorships with the most influential and successful skiing associations and athletes of the world.

One particularly memorable event: in 1987, the Swiss national team races to 14 victories in the Alpine Ski World Championships in Reusch gloves. And the success story continues. To this day, Reusch athletes **Reusch athletes have won 71 Overall Alpine Ski World Cups.**

History & Passion

We strive for excellence, and we will continue to do so. As Reusch is on a mission to setting new standards for craftsmanship, comfort and performance of our gloves, the Reusch team is continuously looking for new inspirations, new technologies and new ideas. Our vision is to empower individuals and sport organizations with the right equipment to enhance performance, comfort, and safety. Simply put:

**We want to
produce
the world's
best gloves.**

90 YEARS *of*
REUSCH

**THE GLOVE-
SPECIALIST TODAY**

Since its beginnings, the company has always pursued one goal: developing and manufacturing the best gloves, crafted with high-quality materials, innovative technologies and an outstanding fit. This continues to be our guiding principle today.

Reusch today is the official supplier for the ski federations of Austria, Switzerland, France, Norway, Slovenia and the US. Furthermore, the company counts the world's most famous ski athletes amongst its testimonials, e.g. Mikaela Shiffrin, Petra Vlhová, Alexis Pinturault, Henrik Kristoffersen, Marco Odermatt and many more.

63 01 298 REUSCH HEAT ESSENCE R-TEX® XT

Reusch Heat-Essence is a versatile and multifunctional glove featuring an innovative battery-powered heating system that warms your hands up faster and protects them during cold winter days. This glove is the perfect companion for enjoying your everyday outdoor adventures without limits! Reusch Heat Essence provides three different warmth levels that can be easily selected through the switch button on the glove's backhand. Moreover, it features touch-screen compatible inserts on the thumb and index finger that allow the use of mobile devices, and a zippered battery compartment to protect the battery from moisture and water. The package includes 2 rechargeable Lithium Polymer batteries and 1 micro-USB Y split cable for a fast and easy recharge.

Our commitment

Here we share some of our achievements and future commitment goals in selected areas. We have the intention of growing this list year after year.

WHAT WE HAVE IMPLEMENTED SO FAR:

PACKAGING

- Use of FSC-Certified paper for packaging items and catalogues.
- Focus on 100% recycled and recyclable materials for the polybags in which products are packed.

MATERIALS

- PFCs have been progressively removed from the backhand shell materials of our ski gloves.
- Recycled insulations from certified sources have been widely introduced in our winter glove collection.
- Recycled linings and recycled membranes from certified sources are being introduced on a significant number of models of our winter glove range.
- Over 100.000 pairs of gloves have been produced using recycled polyester components in their backhand shell materials.
- Since September 2023, 100% of the Gore-Tex inserts we source are PFC Free (Gore-Tex ePE).
- We introduced technical apparel for goalkeepers made with recycled polyester.

SUPPLY CHAIN & LOGISTICS

- Rethinking demand planning, adapting timings, anticipating decisions, and increasing risks to reach on-time deliveries focusing on sea-freight shipments.
- Internal reorganisation to optimize shipments from our factories (consolidation of shipments).

SOCIAL & ETHICAL IMPACT

- We established sourcing guidelines with our factories, including social, ethical, and environmental requirements.
- Despite the seasonal aspect of our products, we work hand in hand with our suppliers and feed production lines all year long to enable stable working conditions.

SUPPLY CHAIN & LOGISTICS

- Since 2019 Reusch has been voluntarily calculating the CO² emissions linked to our activities and finance certified climate projects.

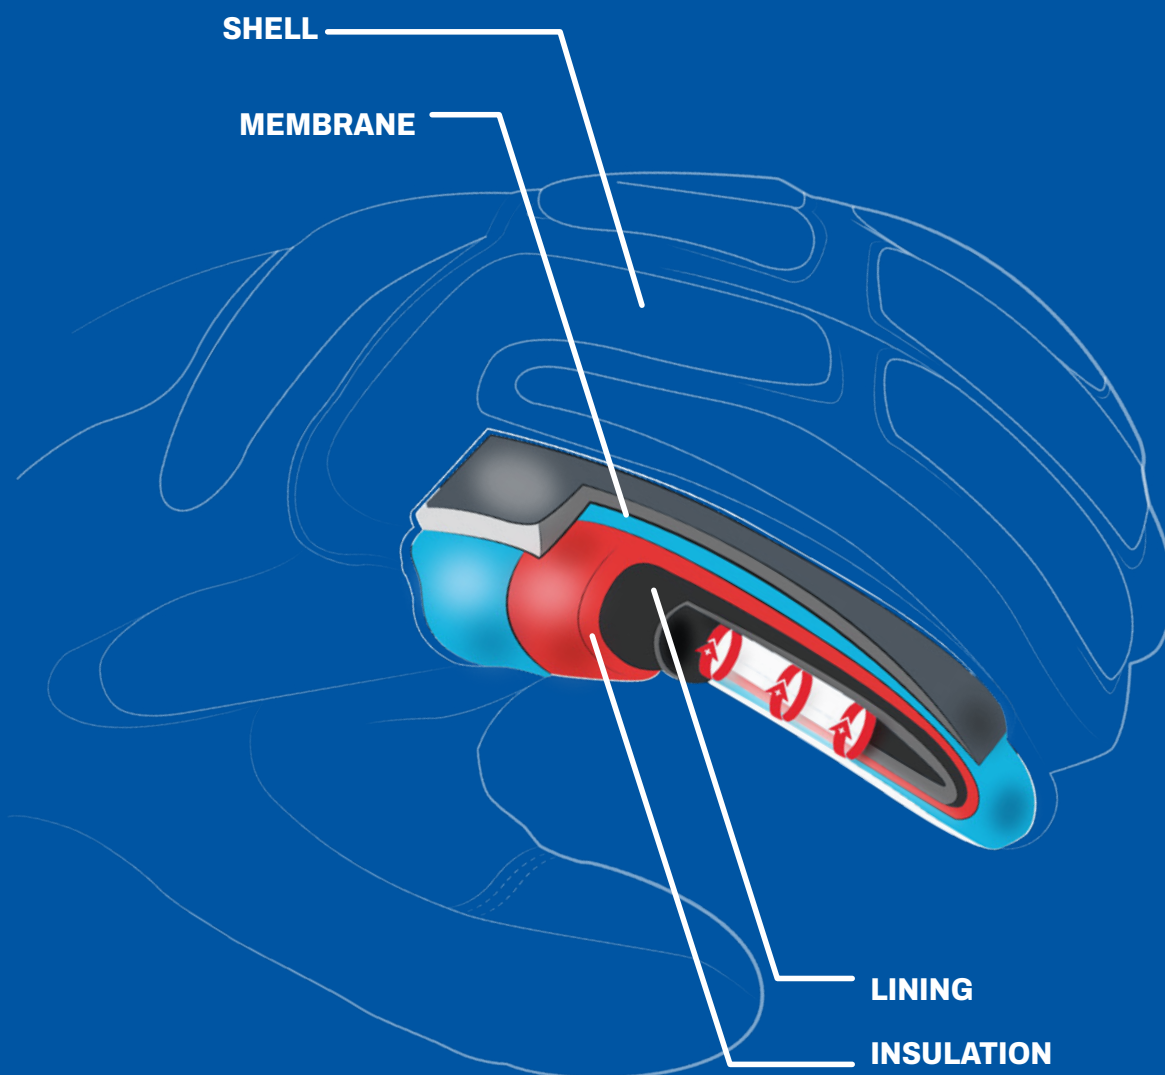

OUR NEXT CHALLENGES

- Intensifying the use and the proportion of recycled ingredients in our products.
- Maximize products durability to increase their lifetime and reduce waste.
- Continue optimizing and reducing packaging materials.
- Improve the energy efficiency of our warehouse.
- Continue optimizing transport.
- Keep monitoring Reusch's CO² footprint.
- Further involve factories, nurture the relationships with our suppliers to continue improving and reducing the impact of our products.

The glove specialist since 1934

Since the foundation of our company 90 years ago, we have acquired extensive knowledge and skills to develop and produce outstanding products. As leading winter sports glove brand we follow our guiding principle to achieve excellence in every aspect. We see it as our duty to produce the best gloves in terms of fitting, materials, performance, and comfort. In short: Gloves with Reusch quality.

In close cooperation with some of the world's best winter sports athletes, and in constant examination of the market's needs and desires, we make sure to develop the best gloves for all snow enthusiasts out there.

The outer material defines the look of a glove, **its durability, weather resistance, breathability and wearing comfort.**

WATER REPELLENT SHELL

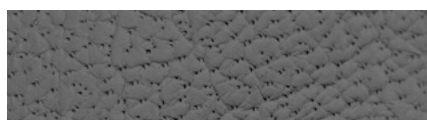

Gloves with water-repellent fabrics offer reliable resistance to water penetration. Moreover, water-repellent fabrics ensure improved abrasion resistance and are, therefore, very long-lasting.

SOFTSHELL

Softshell fabrics are highly breathable and 4-way stretchable to ensure maximum freedom of movement. As their name implies, these fabrics are characterized by their softness and high wearing comfort.

SOFTSHELL PREMIUM

Our exclusive selection of highest-quality softshell fabrics offers maximum wearing comfort and supreme softness. These fabrics are highly breathable and 4-way stretchable to ensure maximum freedom of movement.

LEATHER

- Premium shell material
- Abrasion-resistant, durable, soft, wind-proof, and water-repellent
- Available leather types:
 - Sheepskin: extremely soft and smooth
 - Goatskin: extremely robust
 - Cowhide: soft and robust
- Outer appearance can change over time without affecting its performance

RE:KNIT

- Made of 100 % knit material
- Entirely seamless, one-piece backhand and gusset construction
- Only one thread per colour needed
- No waste from production
- Seamless comfort and unlimited freedom of movement

ALPINE MELANGE

- Windproof, water resistant and breathable shell
- Guarantees maximum wearing comfort
- Contains 35% wool for even more softness and warmth

MELANGE FABRIC

- Two different colored polyester fibers form melange yarn
- Very soft
- Windproof, water resistant, highly breathable
- Unique color effects

WINDSTOPPER® BY GORE-TEX LABS

- Absolute windproofness and extreme breathability
- Protect hands from chilling effects of wind and weather conditions
- Easy escape of moisture vapor to keep hands dry and warm

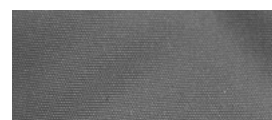

POLARTEC HARDFACE

- Increased abrasion resistance and water repellency
- Enhanced durability and weather resistance
- Highly breathable

POLARTEC POWER STRETCH

- Highly breathable
- Moisture wicking and quick drying
- 4-way stretch material

MICROFIBERS

- Very durable and highly robust
- Guaranteed windproof and water-resistant
- Either twill or plain woven textiles

Membrane

Our high-quality **inserts** keep the gloves guaranteed **waterproof, windproof and breathable**.

GORE-TEX

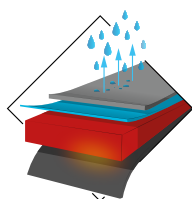

Gloves engineered with Gore-Tex inserts offer enduring weather protection and comfort with balanced heat transfer and optimum moisture management – even in harsh conditions.

Gore plus warm technology

GORE-TEX GLOVES + GORE WARM TECHNOLOGY

- The warmest Gore-Tex gloves available, optimized to keep hands warmer for longer
- Whole system of inner lining, membrane and outer material is engineered to enable higher insulation performance

R-TEX® XT

- Insert membrane
- Waterproof, windproof, breathable
- Very thin, soft and stretchable
- Provides unlimited ease of movement
- Quick moisture wicking

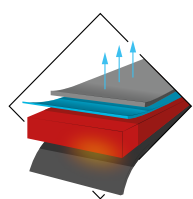

Lamination

The Lamination provides **wind resistance**.

GORE-TEX WINDSTOPPER®

- Offers absolute windproofness
- Extremely breathable
- Designed for exceptional skin comfort

STORMBLOXX™

- Laminated on the inside of the shell material or lining
- Serves as wind breaker
- Windproof and water repellent
- Highly breathable and quick-drying

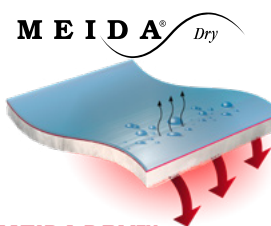

Insulations

The insulation layer defines the glove's heat retention capacity in order to **keep the hands warm**.

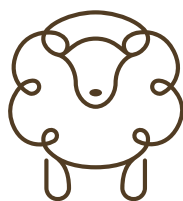

REALDOWN

- Best warmth-to-weight ratio
- Soft, light and fluffy nature with excellent heat-retention capacity
- Protected by breathable and waterproof "down-proof bag"

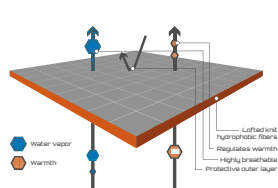

MEIDA DRY™

- Exclusive cooperation between Meida® and Reusch
- Used on the palm side only
- Combination of warmth, waterproofness and breathability
- That guarantees high tactility and a direct grip to the ski pole

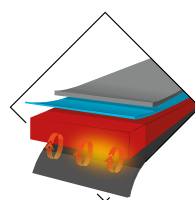

WOOL

- Extra warm
- High heat retention
- Highly comfortable material
- High moisture-wicking capacity

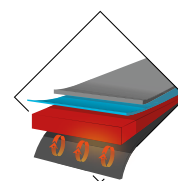

POLARTEC® ALPHA®

- Synthetic fiber insulation
- Warmth without weight
- Highly packable, quick drying and breathable
- Originally developed for the U.S. Special Forces

R-LOFT™

- Extra warm and very soft synthetic insulation
- High volume and low in weight
- Optimal heat retention
- Provides maximum wearing comfort

TECFILL™

- Synthetic fiber insulation
- Compact and solid insulation
- Offers an adequate amount of warmth

PRIMALOFT® GOLD

- The high-quality insulations of our partner PrimaLoft® keeps your hands warm, dry and comfortable.
- Protection in extreme conditions
- Most thermally-efficient synthetic insulation
- Water-repellent, breathable and soft
- This insulation is the most used PrimaLoft® Insulation in range.

PRIMALOFT® GOLD WITH CROSS CORE™ TECHNOLOGY

- Innovative synthetic insulation
- Delivers unprecedented lightweight warmth
- Aerogel technology is fused with PrimaLoft® Gold Insulation
- Ensures wet weather protection

PRIMALOFT® GOLD DOWN BLEND

- Combination of goose down and synthetic fibers
- Warmth equivalent to 750 fill power down
- Maintains 95% of its warmth capabilities when wet

PRIMALOFT® ECO GRIP CONTROL

- Slip-resistant grip for a firm and stable hold
- Delivers performance by enhancing the warmth and comfort
- Freedom of movement
- Breathable and water-resistant
- 100% recycled content

PRIMALOFT® SILVER

- First biodegradable 100% recycled synthetic insulation
- Water-repellent to keep you warm when wet
- Delivers comfort and warmth
- Ensures freedom of movement and is super

PRIMALOFT® SILVER ACTIVE

- Low-bulk synthetic insulation
- Great freedom of movement
- Stays warm even in wet conditions

PRIMALOFT® SILVER BIO™

- Made from 100% recycled PET bottles
- Designed to return to nature
- Keeps you warm even in wet conditions, dries fast
- Packable, breathable and soft

PRIMALOFT® SILVER HIGH-LOFT ULTRA

- The most thermally-efficient synthetic insulation available
- Made of 55% recycled fibers
- Polyester-cotton, soft and lightweight
- Water-repellent, weather resistant and breathable
- Keeps warm when wet

Linings

The first layer plays an important role for moisture management, hygiene and wearing comfort of the glove. It provides a gentle touch in direct skin contact, absorbs sweat and releases it on the outside.

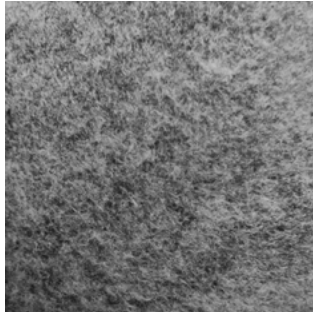

MICROACTIVE

- Very soft polyester lining
- Offers high wearing comfort and prevents skin-irritations
- Absorbs moisture from the skin and transports it to the surface
- Temperature-regulating and anti-static capabilities

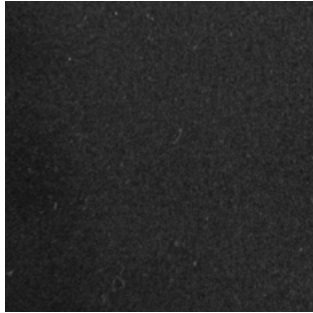

SOFTPLUSH

- Extremely soft material
- Super gentle touch and outstanding comfort
- High-loft structure for an extra amount of warmth
- Absorbs moisture from the skin and transports it to the surface

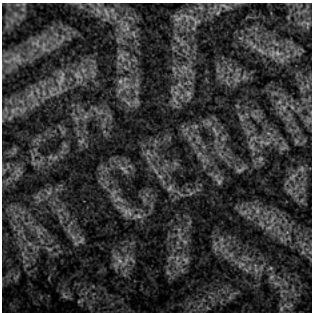

WOOL BLEND

- Extra warm lining with 20% wool
- High heat retention abilities
- Highly comfortable material
- High moisture-wicking capacity

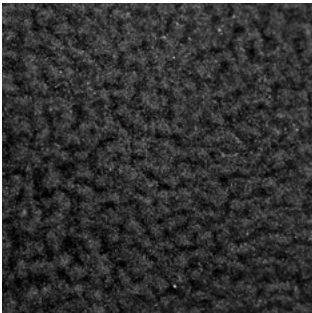

WINDSTOPPER® BY GORE-TEX LABS

- Offers absolute windproofness
- Extremely breathable
- Designed for exceptional skin comfort

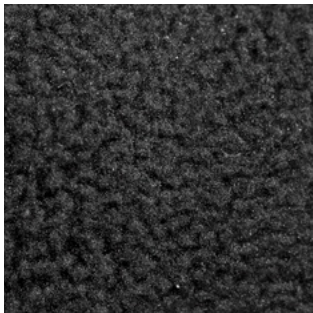

HEAT CERAMIC

- Equipped with Ceramic particles on the inner side of the lining
- Increased thermal resistance by up to 18% percent
- Deep heat conduction through infrared radiation
- Enhances blood circulation

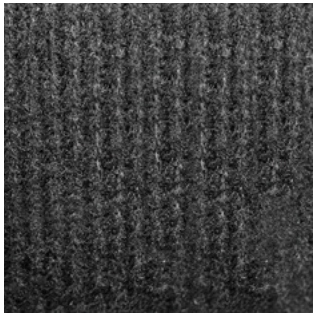

DRYFLEECE™

- Quality seal for the highest functional Reusch fleece materials
- Comfortably soft and warm
- Fast-drying material
- Excellent wicking abilities

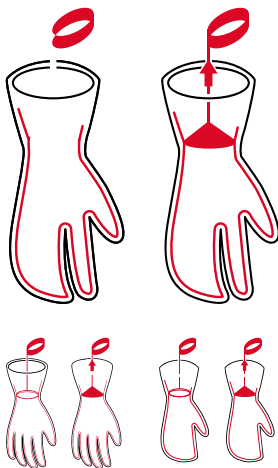

POLARTEC® MICROFLEECE

- Fleece made of recycled polyester fibers
- Extremely soft and comfortable in direct skin contact
- Outstanding moisture wicking abilities
- Temperature-regulating and anti-static woven textiles

MICROACTIVE 100% PCR

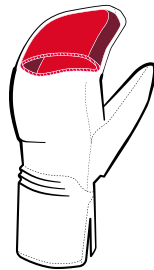

- Made of 100% post consumer recycled (PCR) fibers
- Based on very soft and comfortable MicroActive polyester lining
- Fuller and better hand feeling
- Increased wicking abilities

HEAT CAPTURE SYSTEM™ TECHNOLOGY (PATENTED IN EU)

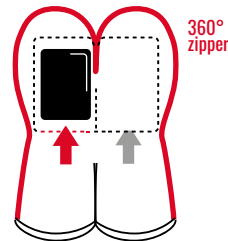

- Patented technology
- Gaiter construction on the inside of the cuff that stores warmth and enhances comfort
- Builds an impassable barrier for snow, wind and cold
- Gaiter gets automatically loosened by releasing the leash

Thanks to exclusive solutions and technologies, **Reusch gloves guarantee warmth and performance** in any kind of weather condition and situation.

THERMOHOODS™

- Dryfleece™ material covering the finger tips
- Offers additional warmth in this highly sensitive area
- Placed on top of the insulation layer

BABY INTELLIGENT HEATING POCKET™

- Intelligent Heating Pocket™ system adapted to the needs of babies
- Down insulation that protects the hands from direct contact to the heating pad
- Warmth is kept inside the glove

REUSCH HEATING PADS

- Offer eight hours of warmth with a heating capacity of up to 55°C
- Odorless Heating Pads are automatically activated by air
- After use they should be disposed in household waste

VIRTUAL SHOWROOM.

We embrace innovative solutions.

The platform offers details, pictures and descriptions of each single article as well as product and information videos, key campaign visuals and a download section including presentations, catalogues and simply all relevant documents for clients, sales force and business partners.

BEST PRACTICE
PRESENTATION**

GLOVE LOVE

As leading winter sports glove brand we see it as our duty to produce the best gloves in terms of fitting, materials, performance and comfort. Read through our care instructions step by step and learn more about how to treat your gloves right.

1. AVOID WASHING

- Always check the glove care label thoroughly. Each model is different and can have different specifications.
- In general, we advise against hand-washing or machine-washing your gloves.
- Beware that washing gloves can harm the material properties and the functionality of the gloves.
- If you need to clean your gloves, you can use a wet cloth.

2. DRYING AT ROOM TEMPERATURE

- Let the gloves dry at room temperature.
- Keep away from radiators or other sources of direct heat.
- Direct contact with radiators deteriorates especially the palm material and harms its durability.

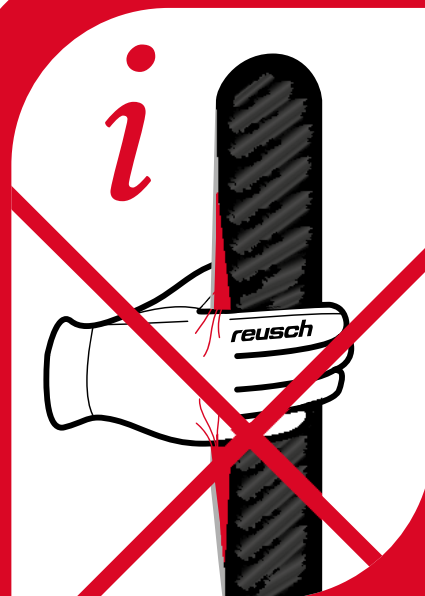

3. LEATHER TREATMENT

- Clean full-leather gloves only by wiping them with a wet tissue.
- After drying, treat leather gloves with dubbin or a similar type of regular leather care product.
- Be aware of any instructions written on the used leather care product.
- The Reusch Leather Care wax enhances the durability of the leather and maintains its smoothness.
- Store the wax at room temperature.
- Being a natural material, the outer appearance of leather can change slightly over time. Nevertheless, this does not affect its performance in any way.

4. STORAGE

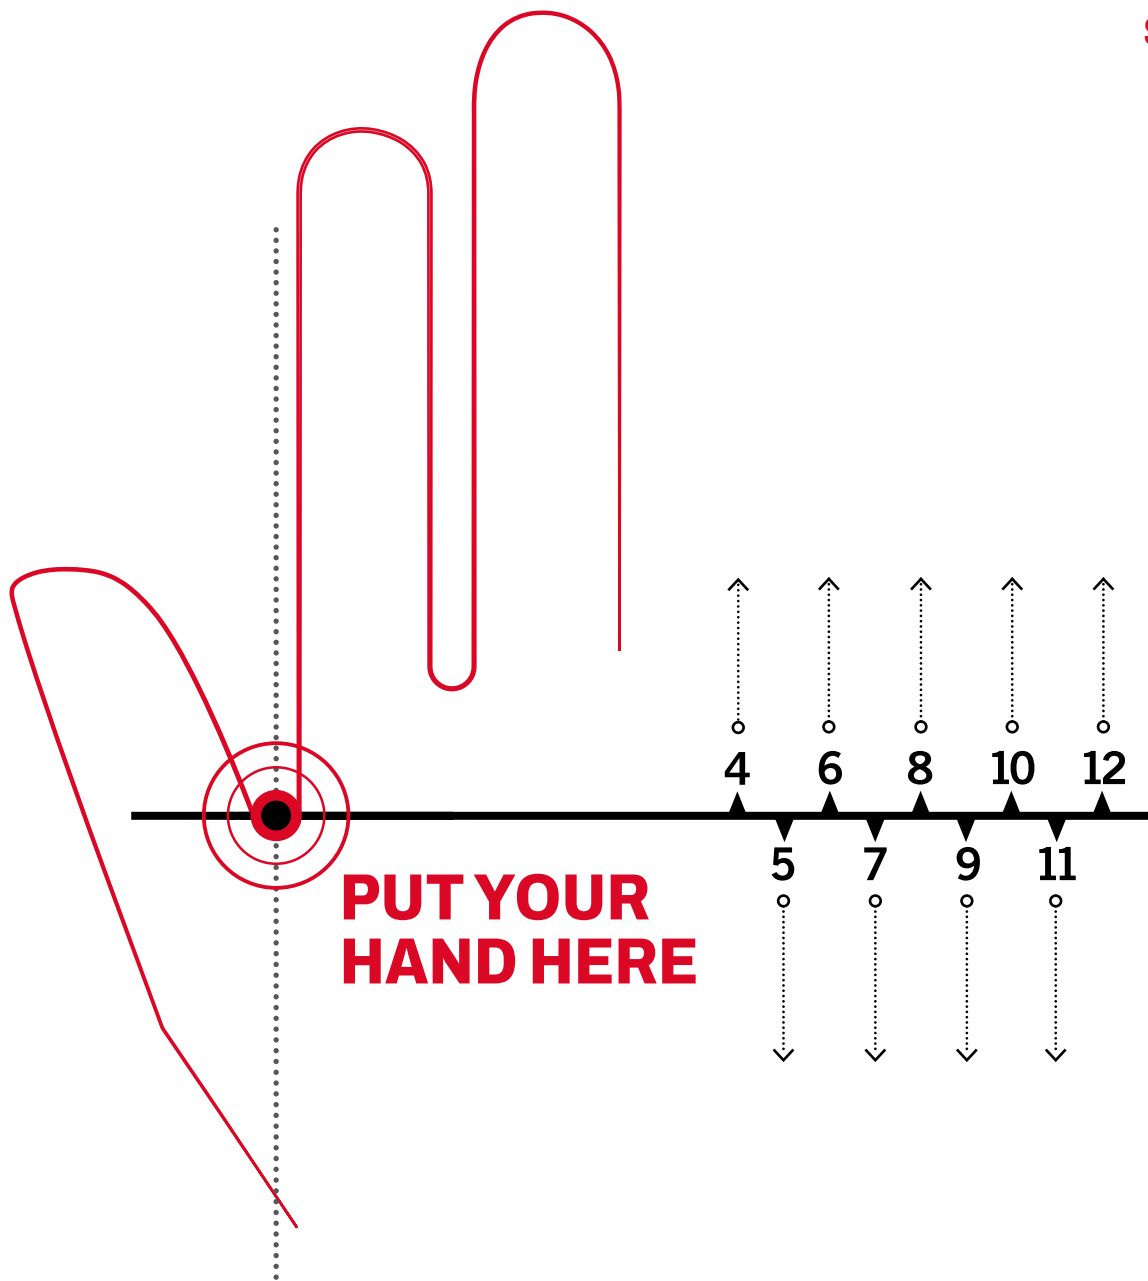

- Do not expose gloves to UV-radiation like intense sun light or light from fluorescent tubes.
- Store the gloves in a cool, dark and dry place.

IMPORTANT WEARING TIPS

- **Never grab the skis on their sharp edges**, as these can scratch or cut the upper material of the glove.
- Many gloves come with an integrated storm leash that can easily be fastened around the wrist.
- Small woven loops on the inside of the cuff make it possible to add external storm leashes.

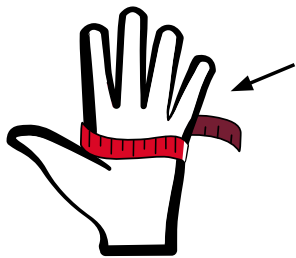

FOLLOWING THESE BASIC RULES WHEN USING, CLEANING, DRYING AND STORING THE GLOVES WILL HELP MAXIMIZING THEIR PERFORMANCE AND DURABILITY.

Besides the size table shown below, the size can also be determined as follows: use a measurement tape or any yarn to measure the circumference of your hand.

Place the tape where the hand is widest.
Kids sizes can be derived from the kids' age according to the tables below.

HOW TO MEASURE THE HAND CIRCUMFERENCE.

UNISEX	
SIZE	CM (HAND CIRCUMFERENCE)
6	15,20
6,5	16,50
7,0	17,80
7,5	19,10
8,0	20,30
8,5	21,60
9,0	22,90
9,5	24,20
10,0	25,40
10,5	26,70
11,0	27,90
11,5	29,20
12,0	30,50

JUNIOR	
SIZE	AGE
3,5	5 - 6
4,0	6 - 7
4,5	7 - 8
5,0	8 - 9
5,5	9 - 10
6,0	10 - 12
6,5	12 - 14
7,0	14 - 16

BABY	
SIZE	AGE
0	0 - 1
I	1 - 2
II	2 - 3
III	3 - 4
IV	4 - 5
V	5 - 6

IMPORTANT: all charts and figures are helpful tools to find the right size, however it is of utmost importance to try a glove on to find your individual, preferred fit.
